The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the ”Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Customer Care and Billing in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Customer Care and Billing.

Reported Issue

Description

When the user adds a new primary name and changes the old primary name type to a different name type in Person page, the error "*List has 2 references with the same keys [<Person ID>, <sequence>]*" displays in Stop Service Process Flow.

Steps To Recreate

- Open or create a new Person with Service Agreement

Person Page

Service Agreement Page

Copyright ©2026, Oracle. All rights reserved.

- Go to Person page. Add a new name in Person Names field then make the name type to “Primary”

Person Page

- Change the old primary name type to “Former” then update the Person Name. Click save

Person Page

- Go to Moving Service > Stop Service

Copyright ©2026, Oracle. All rights reserved.

Stop Service

- Fill out required fields in Services to Stop panel. Then click “Next”

Service to Stop Process Flow Panel

- Fill out required fields in Person and Account Details panel. Then click “Next”

Copyright ©2026, Oracle. All rights reserved.

Person and Account Details Process Flow Panel

Error "List has 2 references with the same keys [<Person ID>, <sequence>]" displayed

Expected Result: The panel should proceed to Review and Submit panel and no error should display.

Actual Result: Error "*List has 2 references with the same keys [<Person ID>, <sequence>]*" displayed after clicking "Next" in Person and Account Details panel.

Solution Design

Update **Stop Service - Update Person and Account Details** (***C1StpUPerAcc***) logic to retrieve **Primary Name Sequence** (***primaryNameSequence***). If ***primaryNameSequence*** is NOT equal to ***personNameIndex***, do existing logic; otherwise increment ***personNameIndex.***
