The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the ”Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Service and Measurement Data Foundation in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Service and Measurement Data Foundation.

Document History

Date	Name	Description/Reason for change
2026-02-03	Akash Reddy Mogiligidda	Bug 38879050 - The base Usage Calculation rule "Business Flag Hold" does not function as expected

Review History

Date	Reviewer Name	Notes
2026-02-03	RahulKashyap Gaddam	Final Review Completed

Reported Issues

Description

When the Business Flag is in discarded status the Business Flag Hold Usage rule is not working as expected.

Steps to Recreate

1. Create a device, device configuration, measuring component.
2. Create a service point and install the device on it.
3. Create readings on the measuring component.
4. Create a business flag:
    - Business flag date/time as 01-15-2025 12:00 AM
    - Business flag end date/time as 01-18-2025 12:00AM
    - in discarded status.
5. Create a usage calculation group and business flag hold usage rule on it.
6. Create a usage subscription.
7. Create a usage transaction from 01-01-2025 12:00 AM – 02-01-2025 12:00 AM.
8. Observe that the usage transaction is created in issue detected status and with the error message “A indefinite hold has been placed” even when the business flag is in discarded status.

Copyright ©2026, Oracle. All rights reserved.

Investigation

Problem Cause

In the Business Flag Hold usage rule, the statusDiscard parameter is bound to the BO_STATUS_CODE instead of BO_STATUS_CD.

Suggested Solution

Changes are made to the Business Flag on Hold such that the statusDiscard parameter is bound to BO_STATUS_CD.

Solution Design

Changes are made to the Business Flag on Hold such that the statusDiscard parameter is bound to BO_STATUS_CD.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	N
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

Changes

Following java file has been modified –

IdentifyBusinessFlagHoldsAlgComp_Impl.java

Recommended Test Cases

Test Case 1: Verify that a usage transaction is created in Approval in Progress status whenever its associated business flag is in Discarded status.

1. Create a device, device configuration, measuring component.
2. Create a service point and install the device on it.
3. Create readings on the measuring component.
4. Create a business flag:
    - Business flag date/time as 01-15-2025 12:00 AM
    - Business flag end date/time as 01-18-2025 12:00AM
    - in discarded status.
5. Create a usage calculation group and business flag hold usage rule on it.

 Copyright ©2026, Oracle. All rights reserved.

6. Create a usage subscription.
7. Create a usage transaction from 01-01-2025 12:00 AM – 02-01-2025 12:00 AM.
8. Notice that the usage transaction is created in Approval in progress.

Resolution Verification

Test Case 1: Verify that a usage transaction is created in Approval in Progress status whenever its associated business flag is in Discarded status.
