The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the ”Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Service and Measurement Data Foundation in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Service and Measurement Data Foundation.

Reported Issue

Description

When performing UT processing on a closing bill, the end dates of the closing bill is adjusted to the Usage Subscription end date even when billing option is current day.

Steps To Recreate

- Create device and install to an SP
- Create reads. i.e. Interval Reads for 01/01/2025 12:00AM to 01/05/2025 12:00AM
- Create Usage Subscription that uses Usage Subscription Type that derives the Usage Group using rates. Set the US start date as 01/01/2025 12:00AM
- Create an interim UT using Math Rule for
    - Interval Start 01/01/2025 12:00AM
    - Interval End From 01/03/2025 12:00AM
    - Interval End To 01/03/2025 12:00AM
    - Scalar Start 01/01/2025 12:00AM
    - Scalar End From 01/02/2025 12:00AM
    - Scalar End To 01/02/2025 11:59PM
- Verify that usage transaction is calculated with all dates retained
- Inactivate the Usage Subscription with End Date = 01/04/2025 12:00AM USSP Stop Date = 01/04/2025 12:00AM
- Create a closing UT using Math Rule for
    - Interval Start 01/03/2025 12:00AM
    - Interval End From 01/05/2025 12:00AM
    - Interval End To 01/05/2025 12:00AM
    - Scalar Start 01/03/2025 12:00AM
    - Scalar End From 01/04/2025 12:00AM
    - Scalar End To 01/04/2025 11:59PM
- Verify that resulting UT is calculated BUT dates are shifted to
    - Interval Start 01/03/2025 12:00AM
    - Interval End From 01/04/2025 12:00AM

Copyright ©2026, Oracle. All rights reserved.

- Interval End To 01/04/2025 12:00AM
- Scalar Start 01/03/2025 12:00AM
- Scalar End From 01/04/2025 12:00AM
- Scalar End To 01/04/2025 12:00AM

Solution Design

Summary

Modify the routine that identifies the Usage Group and validity. When bill condition is Closing, do not set the validity end date as the US end date, instead use the original UT end date.

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	Y
Is there an impact on any batch process?	Y
Is there an impact on CM – Custom Modification processing?	Y
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

Changes

Java

[Updated] DetermineSubscriptionUsageGroup_Impl.java

Modify the routine that identifies the Usage Group and validity. When bill condition is Closing, do not set the validity end date as the US end date, instead use the original UT end date.

Recommended Test Cases

Test Case 1: Initial Bill

- Create device and install to an SP
- Create reads. i.e. Interval Reads for 01/01/2025 12:00AM to 01/05/2025 12:00AM
- Create Usage Subscription that uses Usage Subscription Type that derives the Usage Group using rates. Set the US start date as 01/01/2025 12:00AM
    - Setup Rate 1 = 01/01/2025
- Create an Initial UT using Math Rule for
    - Interval Start 01/01/2025 12:00AM
    - Interval End From 01/03/2025 12:00AM
    - Interval End To 01/03/2025 12:00AM
    - Scalar Start 01/01/2025 12:00AM
    - Scalar End From 01/02/2025 12:00AM
    - Scalar End To 01/02/2025 11:59PM
- Verify UT is calculated for 01/01/2025 12:00AM to 01/03/2025 12:00AM

Test Case 2: Interim Bill

- Create device and install to an SP
- Create reads. i.e. Interval Reads for 01/01/2025 12:00AM to 01/05/2025 12:00AM
- Create Usage Subscription that uses Usage Subscription Type that derives the Usage Group using rates. Set the US start date as 01/01/2025 12:00AM
    - Setup Rate 1 = 01/01/2025
- Create an Interim UT using Math Rule for
    - Interval Start 01/01/2025 12:00AM
    - Interval End From 01/03/2025 12:00AM
    - Interval End To 01/03/2025 12:00AM
    - Scalar Start 01/01/2025 12:00AM
    - Scalar End From 01/02/2025 12:00AM
    - Scalar End To 01/02/2025 11:59PM
- Verify UT is calculated for 01/01/2025 12:00AM to 01/03/2025 12:00AM

Copyright ©2026, Oracle. All rights reserved.

Test Case 3: Closing Bill

- Create device and install to an SP
- Create reads. i.e. Interval Reads for 01/01/2025 12:00AM to 01/05/2025 12:00AM
- Create Usage Subscription that uses Usage Subscription Type that derives the Usage Group using rates. Set the US start date as 01/01/2025 12:00AM
    - Setup Rate 1 = 01/01/2025
- Inactivate the Usage Subscription with End Date = 01/04/2025 12:00AM USSP Stop Date = 01/04/2025 12:00AM
- Create a closing UT using Math Rule for
    - Interval Start 01/03/2025 12:00AM
    - Interval End From 01/05/2025 12:00AM
    - Interval End To 01/05/2025 12:00AM
    - Scalar Start 01/03/2025 12:00AM
    - Scalar End From 01/04/2025 12:00AM
    - Scalar End To 01/04/2025 11:59PM
- Verify that resulting UT is calculated and dates are not shifted\
    - UT calculated from 01/03/2025 12:00AM to 01/05/2025 12:00AM
    - Interval Start 01/03/2025 12:00AM
    - Interval End From 01/05/2025 12:00AM
    - Interval End To 01/05/2025 12:00AM
    - Scalar Start 01/03/2025 12:00AM
    - Scalar End From 01/04/2025 12:00AM
    - Scalar End To 01/04/2025 11:59PM

Test Case 4: Initial and Closing Bill

- Create device and install to an SP
- Create reads. i.e. Interval Reads for 01/01/2025 12:00AM to 01/05/2025 12:00AM
- Create Usage Subscription that uses Usage Subscription Type that derives the Usage Group using rates. Set the US start date as 01/01/2025 12:00AM
    - Setup Rate 1 = 01/01/2025
- Inactivate the Usage Subscription with End Date = 01/04/2025 12:00AM USSP Stop Date = 01/04/2025 12:00AM
- Create a initial and closing UT using Math Rule for

Copyright ©2026, Oracle. All rights reserved.

    - Interval Start 01/01/2025 12:00AM
    - Interval End From 01/05/2025 12:00AM
    - Interval End To 01/05/2025 12:00AM
    - Scalar Start 01/01/2025 12:00AM
    - Scalar End From 01/04/2025 12:00AM
    - Scalar End To 01/04/2025 11:59PM
- Verify that resulting UT is calculated and dates are not shifted\
    - UT calculated from 01/01/2025 12:00AM to 01/05/2025 12:00AM
    - Interval Start 01/01/2025 12:00AM
    - Interval End From 01/05/2025 12:00AM
    - Interval End To 01/05/2025 12:00AM
    - Scalar Start 01/01/2025 12:00AM
    - Scalar End From 01/04/2025 12:00AM
    - Scalar End To 01/04/2025 11:59PM

Test Case 5: Default Rate Change Behavior and Interim Bill

- Create device and install to an SP
- Create reads. i.e. Interval Reads for 01/01/2025 12:00AM to 01/05/2025 12:00AM
- Create Usage Subscription that uses Usage Subscription Type that derives the Usage Group using rates. Set the US start date as 01/01/2025 12:00AM
    - Setup Rate 1 = 01/01/2025
    - Setup Rate 2 = 01/03/2025
- Create an Interim UT using Math Rule for
    - Interval Start 01/01/2025 12:00AM
    - Interval End From 01/05/2025 12:00AM
    - Interval End To 01/05/2025 12:00AM
    - Date Break 01/03/2025
    - Scalar Start 01/01/2025 12:00AM
    - Scalar End From 01/04/2025 12:00AM
    - Scalar End To 01/04/2025 11:59PM
- Verify UT is calculated for 01/01/2025 12:00AM to 01/05/2025 12:00AM showing rate change on 01/03/2025
