The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the"Single Fix" described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of MDM in a manner compatible with Oracle's business objectives, and the business objectives of each of Oracle's customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of MDM.

Changes

Entity Tag

- [Updated] F1-AppSvc-26.4

Recommended Test Cases

Test Case 1: Verify the application services are added to the Entity Tag F1-AppSvc-26.4

1. Navigate to Admin ➔ Implementation Tools ➔ Entity Tag
2. Type F1-AppSvc-26.4 in the field Entity Tag
3. Click on the result and verify the 7 X1 application services are added to the Entity Tag.
