Reported Issue

Description

Despite having "Display Letter" access to the Customer Contact Application Service, users in the READ_ONLY user group are unable to view the Customer Contact Letter. This occurs even though the appropriate permissions are assigned, resulting in the letter not being displayed as expected.

Steps To Recreate

Data Setup

- Customer Contact Application Service.

Application Service

- Create a User and assign the new User Group.

User – User Group

- User group with Application Services and Access Modes.

Copyright ©2026, Oracle. All rights reserved.

User Group – Application Services

Reported Issue

- Log in to the created User and navigate to Customer Contact.
- Go to Customer Contact, Click on Display Letter.

Customer Contact

- The Letter is not displayed despite the user having ‘Display Letter’ security access.

Customer Contact Letter

Expected Result: Clicking on "Display Letter" should open Customer Contact Letter.

Actual Result: Despite user having the security access, user is not able to view Customer Contact Letter.

Solution Design

- Introduce a new entity convenience method in Customer Contact Entity class for the Display Letter functionality.
- Add a new service to invoke the new entity convenience method.
- Update the **Customer Contact – Display** ***(C1CustCntDsp)*** to check the user access and display the Display Letter button.
- Update the UI Map to invoke the new service script instead of **Update Customer Contact Details** ***(C1-UpdateCustomerContactDetail)*** business service.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	**Y**
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

Java Routines

Customer Contact Maintenance (CustomerContact_Impl.java) (Existing)

Business Rules

Method: displayLetter (New)

- Contains the logic to generate doc URL for display letter action.

Copyright ©2026, Oracle. All rights reserved.

Other Changes

UI Map

Customer Contact - Actions (C1-CustomerContactActions) (Existing)

Properties

Property	Value
Code	C1-CustomerContactActions
Description	Customer Contact - Actions
UI Map Type	XHTML Fragment

Business Rules

- Update the ***showLetter()*** function to invoke the new script ***C1CCDSPLT***.

Schema

Xml Schema

`<schema>`
`  <shouldAllowDisplayLetter suppress="true" dataType="boolean" default="false"/>`
`  <shouldAllowReprintLetter suppress="true" dataType="boolean" default="false"/>`
`  <displayLetter suppress="true" type="group">`
`  <includeSS name="C1CCDSPLT"/>`
`  </displayLetter>`
`</schema>`

Service Scripts

Customer Contact Display Letter (C1CCDSPLT) (New)

Properties

Property	Value
Code	C1CCDSPLT
Description	Customer Contact Display Letter
Application Service	F1-DFLTS
Script Engine Version	3.0

Schema

Xml Schema

```
    <schema>
        <customerContactId mapField="CC_ID" dataType="string"/>
        <reprintLetter dataType="boolean" mapField="REPRINT_SW"/>
        <displayLetter dataType="boolean" mapField="ACTION_DSP_LTR_SW"/>
        <onlineDocUrl mapField="ON_LINE_DOC_URL" dataType="string"/>
        <printPlatform mapField="PRINT_PLATFORM_FLG" dataType="string"/>
        <letterPrintReport mapField="REPORT_CD" dataType="string"/>
    </schema>
```

Script Steps

Business Rules

Step 20: Terminate if Customer Contact Id is blank.

- If Customer Contact Id is blank
  - terminate.
- Invoke the Customer Contact display letter entity convenience method.

Step 30: Invoke display letter entity convenience method.

- Invoke the Customer Contact display letter entity convenience method by passing Customer Contact parameter.

Customer Contact – Display (C1CustCntDsp) (Existing)

Script Steps

Business Rules

Step 40: Verify Display Letter User Access and Populate / Set record actions.

- Check ‘Display Letter’ Application Security access for the current user.
- If user access is true and protect letter display is Y
  - Set the switch to true.
- …

Data Clean-Up / Fixes

- Not Applicable.
