The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the “Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Customer Care and Billing in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Customer Care and Billing.

Reported Issue

Description

While navigating to File Location value in the Customer Contact Characteristic section, navigation fails and an "invalid URL" error is displayed instead.

Steps To Recreate

Data Setup

- Add **Customer Contact** under Characteristic Entities for an existing **File Location Value** Characteristic Type

Characteristic Type

- Add the above configured Characteristic Type for the following Customer Contact Type.

Copyright ©2026, Oracle. All rights reserved.

Customer Contact Type

Reported Issue

- Add Customer Contact from Account context menu.

Copyright ©2026, Oracle. All rights reserved.

Account

- Populate the already encoded File location URL under the following Characteristic Type and click on save.

Copyright ©2026, Oracle. All rights reserved.

Customer Contact

- Click the link in the Customer Contact Characteristic.

Expected Result: The URL should open correctly without any extra encoding when clicked.

Actual Result: The URL is being re-encoded when clicked, resulting in a 404 Not Found error.

Solution Design

- For Type of Char Value (representing File Location Value), implement the Display UI Map (***C1-CustContCharDispFrag***) in a manner similar to the Maintenance UI Map (***C1-CustContCharTypeInfoMaint***) to eliminate double encoding of the File Location URL.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	**Y**
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

UI Map

Customer Contact Char Display Fragment (C1-CustContCharDispFrag) (Existing)

- For logic specific to File Location Value navigation, Implement the Display UI Map***(C1-CustContCharDispFrag)*** to use a JavaScript click handler instead of ***href*** attribute in order to avoid the double encoding of the File Location URL, similar to the maintenance UI Map***(C1-CustContCharTypeInfoMaint)*****.**

Data Clean-Up / Fixes

Not applicable.

Recommended Test Cases

Test Case 1: Reported Issue

- Refer to Steps to Recreate.
- **Expected Result**: The URL should open correctly without any extra encoding when clicked.

Test Case 2: Link without Encoding

- Refer to Steps to Recreate.
- **Expected Result**: The URL should open correctly without any extra encoding when clicked.
