Reported Issue

Description

When the customer creates order using existing Premise with more than 20 Service Points, **Array Index Out of Bounds** error occurs in **Order Package Confirmation Window** of the Package in Order creation.

Steps To Recreate

Data Setup

- Create Premise with 21 Service Points

Premise Page

Copyright ©2026, Oracle. All rights reserved.

Premise with 21 Service Points

- Create Algorithm Type and Algorithm for Order that references **Package SA To Create Start Method: Service Type** (***CIPCMVTX***) translated Cobol program.

Note: If an algorithm that references **Package SA To Create Start Method: Service Type** (***CIPCMVTX***) already exists, no need to create another one. Skip the step above and proceed in campaign creation steps.

Campaign Main Tab

Campaign Questions & Misc Fields Tab

- Create Package

Copyright ©2026, Oracle. All rights reserved.

Package Main Tab

- In SAs To Create tab, fill out Start Method Algorithm with Algorithm for ***Create SP and create SA (service Type Based)*** created in Data Setup.

Package – SAs To Create Tab

Package – Eligibility Tab

Replication Steps

- Go to Add Order. In Main tab, set the campaign field value with the campaign created in Data Setup. Then fill out required details in Person Information Zone.

Order – Main Tab

- In Service Address zone, select "*Use Existing Premise*" in the drop down then fill out Address and City field with the Premise created in Data Setup.

Copyright ©2026, Oracle. All rights reserved.

Order – Use Existing Premise

- In Questions & Misc Fields tab, click the "*Show Eligibility*" button

Order – Question & Misc Fields

- Click the Package link in Eligibility Zone

Order Package Confirmation Window

Order Package Confirmation Window

Expected Result: No error should display on the **Order Package Confirmation Window**. Package field should have value and "*Complete*" button is enabled.

Actual Result: Error displayed on the **Order Package Confirmation Window**. No value in Package field and "*Complete*" button is disabled

Solution Design

Increase the **Maximum Service Point Order Integer** (***CI_CONST_CI_MAX_SP_ORDER_INT***) field in **Constants** (***CICZ0000***) translated Cobol program to ***999***.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	Y
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

Translated Java Routines

Constants - CICZ0000 - CIS Constants (Existing)

Business Rules

- Update **Maximum Service Point Order Integer** (***CI_CONST_CI_MAX_SP_ORDER_INT***) to ***999***.

Data Clean-Up / Fixes

Not Applicable

Recommended Test Cases

Test Case 1: Reported Issue

- Refer to Steps To Recreate

Expected Result: No error should display on the **Order Package Confirmation Window**. Package field should have value and "*Complete*" button is enabled.

Test Case 2: Premise with less than 20 Service Points

- Refer to Steps To Recreate
- Create Premise with less than 20 Service Points

Expected Result: No error should display on the **Order Package Confirmation Window**. Package field should have value and "*Complete*" button is enabled.

Test Case 3: Premise with No Service Point

- Refer to Steps To Recreate
- Create Premise with no Service Point

Expected Result: No error should display on the **Order Package Confirmation Window**. Package field should have value and "*Complete*" button is enabled.

Test Case 4: Create Order using New Premise as Service Address

- Refer to Steps To Recreate
- In Service Address zone, select "*Create New Premise*" in the drop down then fill out required details

Expected Result: No error should display on the **Order Package Confirmation Window**. Package field should have value and "*Complete*" button is enabled.
