The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the ”Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Customer Care and Billing in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Customer Care and Billing.

Reported Issue

Description

When an error occurs during ***Display Letter***, the application does not show an error message. Instead, it opens a blank page (about:blank) with no visible error, so the user has no indication that the request failed.

Steps To Recreate

1. Create and configure a dummy Installation – Online Letter Display algorithm that immediately terminates with an error.
2. Navigate to Customer Contact Search and select a customer contact (e.g. enter a Customer Contact ID).
3. Click ***Display Letter***.

Actual Result:

- A blank page (about:blank) opens and no error message is displayed.

Expected Result:

- The error message should be displayed in the standard pop-up dialog.

Solution Design

Modify the ***Customer Contact - Actions*** UI map to handle errors thrown by the ***Display Letter*** service script and display the error using the standard pop-up dialog.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	**Y**
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

UI Map

Customer Contact – Actions (C1-CustomerContactActions) (Existing)

Business Rules

- Modify the ***showLetter()*** function to include error handling for the ***C1CCDSPLT*** service script invocation and present any error in the standard pop-up dialog.

Data Clean-Up / Fixes

- Not Applicable

Recommended Test Cases

Test Case: Display Letter with Error

- See Steps to Recreate.

Copyright ©2026, Oracle. All rights reserved.

- Verify the expected error message appears in the standard pop-up dialog and a blank page is not opened.
