The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the ”Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of SGG in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of SGG.

Reported Issue

Description

On Demand Scalar Read is trying to create IMD even for external measuring components

Steps to Recreate

1. Navigate to a device that has an external Measuring Component with a Measuring Component Type where IMD Handling is set to Filter.
2. In Device Activities section, click on “Initiate Command” link
3. Select On-Demand Read Scalar command and click ok
4. In the next screen, “Command Request”, click Save button
5. In the Activity created, in the Activity Hierarchy section, notice that a “Create IMD Completion Event” was generated for the external Measuring Component.

Solution Design

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	Y
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

JAVA

- Modified IMDFilterService.java (package com.splwg.d1.domain.measurement.initialMeasurementData.services) to filter when Measuring Component Type is configured to filter.

Data Clean-Up / Fixes

Not applicable

Recommended Test Cases

Test Case 1: Run On Demand Read Scalar.

1) Navigate to a device that has an external Measuring Component with a Measuring Component Type where IMD Handling is set to Filter.
2) In Device Activities section, click on “Initiate Command” link
3) Select On-Demand Read Scalar command and click ok
4) In the next screen, “Command Request”, click Save button
5) In the Activity created, in the Activity Hierarchy section, verify that a “Create IMD Completion Event” was not generated for the external Measuring Component.
