Reported Issue

Description

SEC batch with parameter “Complete Event when FA is Canceled” set to N, would not complete Severance Event linked to two Final Actions—one canceled and a later one completed.

Steps to Recreate

Data Setup

- Create an account with active SA.
- Add Severance Process.
- Severance Event has a Canceled FA and completed FA.

Error raised even if Severance Event is linked to a completed FA.

- **Expected Result**: Severance Event is completed if latest FA is completed.
- **Actual Result**: Severance Event is NOT completed even if latest FA is completed.

Solution Design

- Update SeveranceEventCompletionProcess to analyze the latest FA associated to each service point.
