Reported Issue

Description

Remove high ascii values from Detailed Description for D1-INIML batch control and in message 11801, 16097.

Problem Cause

When creating these texts, high ascii values were copied over from designs.

Solution Design

Update the following text to low ascii values:

- Detailed Description for D1-INIML batch control
- Message 11801, 16097

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	Y
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

Data Clean-Up / Fixes

Not applicable

Batch Control

D1-INIML – Initial Extract for ML Cache (Existing)

1. Changed Detailed Description to remove high ascii values

Messages

11801, 16097 - IMD Type is not selected. The IMD Seeder BO always writes to the IMD table adding overhead. IMD Type runs the same rules without that write. Switch for efficient processing. (Existing)

1. Changed Message to remove high ascii values

Recommended Test Cases

Test Case 1: Run SQL to test Long Description of Batch Control for D1-INIML

1. Log into the database.
2. Run SQL : SELECT * FROM CI_BATCH_CTRL_L WHERE BATCH_CD = 'D1-INIML' AND DESCRLONG != ASCIISTR(DESCRLONG);
3. Verify that no records are returned.

Copyright ©2026, Oracle. All rights reserved.

Test Case 2: Run SQL to test Message 11801, 16097.

1. Log into the database.
2. Run SQL : SELECT * from CI_MSG_L WHERE MESSAGE_CAT_NBR = '11801' AND MESSAGE_NBR = '16097' AND MESSAGE_TEXT != ASCIISTR(MESSAGE_TEXT);
3. Verify that no records are returned.
