The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the ”Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Customer to Meter in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Customer to Meter.

Reported Issue

Description

When navigating from MSP to Customer Program Summary, subscriptions not just for the specified MSP, but in addition, subscriptions for other MSPs associated with the specified Metered Service were shown as well.

Steps To Recreate

1. Define a Metered Service with two Metered Service Points, and a Device Location for each.
2. Create a Program Subscription for only one of the Device Locations.
3. Navigate to Customer Program Summary from the context menu of the Metered Service Point that does not have any Program Subscriptions to it.
4. Observe that the Program Subscription related to non-selected Metered service point is shown in Current Enrollment Zone.

Solution Design

Change script **X1_DACSCEIns**. The existing method is replaced with 2 new methods. One will return all Program Subscriptions that have a Device Location matching the specified Metered Service Point. The other will return all Program Subscriptions that do not specify a Device Location but match the supplied Metered Service.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	N
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N

Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

Other Changes

Code Clean-Up / Fixes

None.

Data Clean-Up / Fixes

Not applicable.

Recommended Test Cases

Test Case 1: Verify that the “Customer Program Summary” does not show Program Subscription for non-selected Metered Service Points.

1. Execute the “Steps to Recreate” 1-3
2. Observe that the Subscriptions for the non-selected Metered Service Point are no longer visible in the Customer Enrollment Zone.
