Reported Issue

Description

When attempting to create a Payment Arrangement for an account that has a Web user contact, the process fails due to a referential integrity error, preventing the payment arrangement from being created successfully.

Steps To Recreate

Reported Issue

- Create a V model along with a bill.

Bill

- Create a web user contact for the person using ***C1-WebUser*** Inbound web service.

Copyright ©2026, Oracle. All rights reserved.

Request body required

```
{
  "webUserName": "zzpkwbfr",

    "_link": "/rest/apis/customer/interactions/customerContacts/0754380066"
  },
  "version": 2
}
```

Response

- Web user contact got created successfully.

Copyright ©2026, Oracle. All rights reserved.

Person

- Create an SA in Pending Start for the account.

Service Agreement

- Create another person with a web user contact.

Copyright ©2026, Oracle. All rights reserved.

Person

- Navigate to the account and change the main customer to the new person.

Account

- Add a payment arrangement and click on create Pay Arrangement.

Copyright ©2026, Oracle. All rights reserved.

Payment Arrangement

Referential Integrity error

Expected Result: Payment Arrangement Should get created successfully.

Actual Result: Referential Integrity error is thrown.

Solution Design

Modify the **Account Person Row Maintenance** to throw an error instead of a warning when the main customer of the account is changed while there is an existing pending Start/Stop SA.

Method:performExit_VO000_CHECK_DELETE_CHECK_DELETE (Existing)

- …
- If the Main Customer switch was yes
  - Call **perform_QC600_~~WARN~~CHECK_PERSON_CHANGE**.

Messages

Message Category (3) - CIS Customer Information (Existing)

Message Number	Text Description	Long Description
25233	~~Changing the main person for this account may cause SA activation or stop issues. Do you wish to continue?~~ Main Person cannot be changed when there is a Pending Start/Stop SA for this account	~~This account's start/stop record has person contact updates pending the SA activation/stop. It is recommended to update the person contact details after making this change to the main person.~~ The Main Person cannot be changed because the system maintains a connection between the main person's contacts and those in the pending start/stop.

Data Clean-Up / Fixes

Not applicable.

Recommended Test Cases

Test Case 1: Reported Issue

- Refer Steps to Recreate.
- Navigate to the account and change the main customer to the new person.

- Add a payment arrangement and click on create Pay Arrangement.
- Payment Arrangement got created successfully.

 Copyright ©2026, Oracle. All rights reserved.

Test Case 2: When the Account has a Pending Start SA

Test Case 2.1: Add and set New Person as Main Person

- Create a V model with an SA in Pending Start.
- Add a web user contact to the main person.
- Navigate to the account and add a new person as main customer to the account.
- Main Person cannot be changed error is thrown.
- Activate the SA.
- SA got activated successfully.

Test Case 2.2: Change Main Person from existing to another Person on the Account

- Create a V model with an SA in Pending Start.
- Add a web user contact to the main person.
- Navigate to the account and add another person.
- Make the other person as main customer.
- Main Person cannot be changed error is thrown.
- Activate the SA.
- SA got activated successfully.

Test Case 2.3: Delete Current Main Person and Set Another as Main Person

- Create a V model with an SA in Pending Start.
- Add a web user contact to the main person.
- Navigate to the account and delete the main customer.
- Make the other person as main customer and click on save.
- Main Person cannot be changed error is thrown.
- Activate the SA.
- SA got activated successfully.

Copyright ©2026, Oracle. All rights reserved.

Test Case 3: When Account has a Pending Stop SA

- Create a V model with an SA in Pending Stop.
- Add a web user contact to the main person.
- Change the main customer of the account.
- Main Person cannot be changed error is thrown.
- Stop the SA.
- SA got stopped successfully.

Test Case 4: When the Account has an active SA

- Create a V model with an Active SA.
- Change the main customer of the account and save.
- Account got saved successfully.

Test Case 5: When the Account has a stopped SA

- Create a V model with a Stopped SA.
- Change the main customer of the account and save.
- Account got saved successfully.

Test Case 6: When the Account has a closed SA

- Create a V model with a closed SA.
- Change the main customer of the account and save.
- Account got saved successfully.

Copyright ©2026, Oracle. All rights reserved.

Test Case 7: When the Account has a canceled SA

- Create a V model with a canceled SA.
- Change the main customer of the account and save.
- Account got saved successfully.

Test Case 8: When the Account has no SA

- Create an Account.
- Verify that there are no SAs on the account.
- Change the main customer of the account and save.
- Account got saved successfully.

Test Case 9: Adding Main Person for a new Account

- Create a new account.
- Add a person as the main customer and save.
- Account got saved successfully.
