The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the “Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Customer Care and Billing in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Customer Care and Billing.

Reported Issue

Description

To Do Entry not being highlighted for Non-SP Based SAs on Alerts Section

Steps to Recreate

Data Setup

- Create an account with no SP-Based SA and add Severance Process

Account

Copyright ©2026, Oracle. All rights reserved.

No-SP Based SA

Severance Process for NO-SP based SA

Copyright ©2026, Oracle. All rights reserved.

Run Batch Job set to trigger ToDo event

To Do Event triggered

Copyright ©2026, Oracle. All rights reserved.

Run TD-SEVT Batch Job

Reported Issue

- Search for created To Do.

To Do created without Characteristics

Copyright ©2026, Oracle. All rights reserved.

No Alerts displayed for created To Do

- **Expected Result**: To Do is created with Characteristics and Alert section has to do entry Highlighted for Account and Person
- **Actual Result**: No alerts displayed and To Do is not created with Characteristics.

Solution Design

- Extend the existing query to use left joins, the Service Agreement is always returned when it exists on the Severance Process, while the Service Point and Premise are populated only when applicable.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	N
Is there an impact on any batch process?	Y
Is there an impact on CM – Custom Modification processing?	N

 Copyright ©2026, Oracle. All rights reserved.

Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

Other Changes

To Do Pre-Creation Algorithm (ProgramCIPQTDUX) (Existing)

Update cursor SVSASP to extend the existing query to use left joins, the Service Agreement is always returned when it exists on the Severance Process, while the Service Point and Premise are populated only when applicable.

Data Clean-Up / Fixes

Not applicable

Recommended Test Cases

Test Case 1: Reported Issue

- Follow the Steps to Recreate.

Expected Result: To Do is created with Characteristics and Alert section has to do entry Highlighted for Account and Person.

Test Case 2: SP-based Service Agreement

- Follow the Steps to Recreate but use a SP-Based SA.

Expected Result: To Do is created with Characteristics and Alert section has to do entry Highlighted for Account, premise and Person.
