The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the “Single Fix” described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Customer Care and Billing in a manner compatible with Oracle’s business objectives, and the business objectives of each of Oracle’s customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Customer Care and Billing.

Reported Issue

Description

Popup value search for the Foreign Key Characteristic Value does not auto populate Search By field.

Steps to Recreate

Data Setup

- Create an account and add a case with FK Value characteristic.

Copyright ©2026, Oracle. All rights reserved.

Characteristic Type

Foreign Key Reference

Copyright ©2026, Oracle. All rights reserved.

Case Type associated Characteristics

Account

Add Case

Copyright ©2026, Oracle. All rights reserved.

Foreign Key Value char - Add

Reported Issue

- Click on search for added Foreign Key Value Characteristic

Copyright ©2026, Oracle. All rights reserved.

Account ID is not passed to search zone.

- **Expected Result**: ID is passed to search zone and search is triggered
- **Actual Result**: ID is not passed to search zone.

Solution Design

- Update *Case Characteristic Maintenance Fragment(*C1-CaseCharMaintFrag) to pass account, person and premise IDs via 'oraSearchField' from the FK Reference search element so that these values are pushed to any FK ref search zones that may be looking for them. If the zone does not have them configured to be pulled in, they will be ignored.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	Y
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N

Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

UI Map

Case Characteristic Maintenance Fragment (C1-CaseCharMaintFrag) (Existing)

Update Characteristic fragment UI Map for Case: C1-CaseCharMaintFrag, have the FK Ref search element pass in account, person, and premise via oraSearch, so values are passed to FK reference search zones.

Data Clean-Up / Fixes

Not applicable

Recommended Test Cases

Test Case 1: Reported Issue

- Follow the Steps to Recreate.

Expected Result: Account ID is passed to search zone and search is triggered.

Test Case 2: Passing Person ID

- Follow the Steps to Recreate.

Expected Result: Person ID is passed to search zone and search is triggered.

Test Case 3: Passing premise ID

- Follow the Steps to Recreate.

Expected Result: Premise ID is passed to search zone and search is triggered.
