The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the" Single Fix" described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of Oracle Utilities Customer Care and Billing in a manner compatible with Oracle's business objectives, and the business objectives of each of Oracle's customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of Oracle Utilities Customer Care and Billing.

Reported Issue

Description

During the Start Service process flow, if a user enters an account comment, the comment does not persist on the account and does not appear or populate after the process flow is completed.

Steps To Recreate

Data Setup

- Set the Autopay Usage to None on the Customer Service Request (CSR) Type.

Customer Service Request Type

Reported Issue

- Initiate a Start Service Process Flow.

Copyright ©2026, Oracle. All rights reserved.

Initiate Start Service Flow

- Provide the requested information on the Panels till Panel 4.

Start Process Flow

- Provide a comment in the Account Comment field, Bill After Date and the Bill Message on Panel 4 and click on Next.

Copyright ©2026, Oracle. All rights reserved.

Person and Account Details tab - Panel 4

- Finish the Process Flow.

Process Flow completed

- Account Comment, Bill After Date and Bill Messages are not populated on the CSR Account.

Copyright ©2026, Oracle. All rights reserved.

CSR Account

- Account Comment, Bill After Date and Bill Messages are not populated on the Account.

Account

Bill Messages

Expected Result: Account Comment, Bill After Date and Bill Messages are populated on the Account.

Actual Result: Account Comment, Bill After Date and Bill Messages are not populated on the Account.

Solution Design

- Update the **Start Service – Review and Submit – Post process *(C1StartRePst)*** script so that when Autopay Usage = None, it skips only Autopay-related processing but still executes Step 60 to process/save Account Other Details (including Account Comment) regardless of Autopay Usage.

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N
Does the fix involve DB Changes?	N
