The information contained in this document is proprietary and confidential to Oracle and is subject to the non-disclosure obligations described in the license agreement between your company and Oracle. You may not provide this document or any copy of this document to third parties outside your company unless you first obtain the written permission of Oracle.

This document introduces new and changed business and technical features that Oracle has included in the"Single Fix" described in this document.

The functionality of the Single Fix described in this document may be superseded by functionality included in a future Single Fix, Release or Update. Oracle reserves the right to revise or expand the functionality of any future Single Fix, Release or Update of MDM in a manner compatible with Oracle's business objectives, and the business objectives of each of Oracle's customers, at the time that Oracle makes the software code generally commercially available.

Oracle will provide you with additional information concerning product Releases or Updates after Oracle finalizes the related specifications and tests the product component(s). Final documentation will be shipped to you with the media containing the Release or Update.

Please contact Oracle Customer Service Group if you have any questions or comments concerning this document, which has been prepared for your benefit as a licensee of MDM.

Reported Issue

After Event Participation EST with End of Event program settlement rule for Defer Amount Calculation = Yes and UOM = KW, does not calculate Max, Min, Avg KW Drops.

Steps to Recreate

1. Create Program Settlement Calculation Group with End of Event program settlement rule.
    - Defer Amount Calculation = Yes
    - UOM = KW
2. Create Program / Program event.
    - Configure Program Settlement Calculation Group
3. Create Program Subscription.
    - Configure Program
4. Create an EST.
5. Observe that Maximum Drop, Minimum Drop and Average Drop are NOT calculated, and EST is transitioned to “Calculation Deferred” state.

Problem Cause

After Event Participation EST with End of Event program settlement rule for Defer Amount Calculation = Yes and UOM = KW, does not calculate Max, Min, Avg KW Drops.

Solution Design

Update End of Event program settlement rule to calculate Max, Min, Avg KW Drops when for Defer Amount Calculation = Yes.

Objects modified:

1) Script: X1_EvtSetCal (End of Event Program Settlement Rule)
2) Script: X1-ESTRetDts (Program Settlement Details for Display)
3) UI Map: X1-EvtSettCalcDetailsDisp (Program Settlement Calculation Details Display)

Summary

Change Type	Y/N
Does this fix require any Admin (Soft) Table Changes to be made by the client?	N
Does this fix require upgrade data changes to be applied?	N

Copyright ©2025, Oracle. All rights reserved.

Does the fix involve DB Changes?	N
Is there an impact on any user interface or any other on-line behavior?	N
Is there an impact on any batch process?	N
Is there an impact on CM – Custom Modification processing?	N
Does this fix require an application viewer update for Algorithm data (run F1-AVALG)?	N
Does this fix require an application viewer update for MO data (run F1-AVMO)?	N
Does this fix require an application viewer update for Table data (run F1-AVTBL)?	N

Recommended Test Cases

Test Case 1: Create After Event Participation EST with End of Event program settlement rule for Defer Amount Calculation = Yes and UOM = KW

6. Create Program Settlement Calculation Group with End of Event program settlement rule.
    - Defer Amount Calculation = Yes
    - UOM = KW
7. Create Program / Program event.
    - Configure Program Settlement Calculation Group
8. Create Program Subscription.
    - Configure Program
9. Create an EST.
10. Observe that Maximum Drop, Minimum Drop and Average Drop are calculated, and EST is transitioned to “Calculation Deferred” state.

Copyright ©2025, Oracle. All rights reserved.

Test Case 2: Create After Event Participation EST with End of Event program settlement rule for Defer Amount Calculation = No and UOM = KW

1. Create Program Settlement Calculation Group with End of Event program settlement rule.
    - Defer Amount Calculation = No
    - UOM = KW
2. Create Program / Program event.
    - Configure Program Settlement Calculation Group
3. Create Program Subscription.
    - Configure Program
4. Create an EST.
5. Observe that Maximum Drop, Minimum Drop and Average Drop are calculated and EST is transitioned to “Calculated” state.

Test Case 3: Create After Event Participation EST with End of Event program settlement rule for Defer Amount Calculation = Yes and UOM = KWH

1. Create Program Settlement Calculation Group with End of Event program settlement rule.
    - Defer Amount Calculation = Yes
    - UOM = KWH
2. Create Program / Program event.
    - Configure Program Settlement Calculation Group
3. Create Program Subscription.
    - Configure Program
4. Create an EST.
5. Observe that Maximum Drop, Minimum Drop and Average Drop are calculated, and EST is transitioned to “Calculation Deferred” state.

Copyright ©2025, Oracle. All rights reserved.

Test Case 4: Create After Event Participation EST with End of Event program settlement rule for Defer Amount Calculation = No and UOM = KWH

1. Create Program Settlement Calculation Group with End of Event program settlement rule.
    - Defer Amount Calculation = No
    - UOM = KWH
2. Create Program / Program event.
    - Configure Program Settlement Calculation Group
3. Create Program Subscription.
    - Configure Program
4. Create an EST.
5. Observe that Maximum Drop, Minimum Drop and Average Drop are calculated and EST is transitioned to “Calculated” state.
