Changes

Portal

- [Updated] X1MSP

Recommended Test Cases

Test Case 1: Verify the SP Entity Group zone is added to Metered SP portal

1. Prepare an SP Entity Group assignable to Metered SP's
2. Navigate to Main ➔ Digital Asset Management ➔ Metered Service Point
3. Verify the Zone "Service Point Entity Groups" is displayed at the bottom.
4. Assign an SP Entity Group to the Metered SP.
5. Verify the SP Entity Group is displayed on the Zone.

Test Case 2: Verify Device Population Entity Group and Control Group Entity Group Main section label

1. Navigate to Entity group ➔ search for any Device Population Entity group.
    - Verify the Main section label (earlier it was Entity group instead of Main).
2. Navigate to Entity group ➔ search for any Control Group Entity group.
    - Verify the Main section label (earlier it was Entity group instead of Main).

Test Case 3: Verify Device Population Entity Group and Control Group Entity Group Detailed description

1. Navigate to Entity group ➔ search for any Device Population Entity group.

Copyright ©2025, Oracle. All rights reserved.

    - Verify the Main section label (earlier it was Text box instead of Text Area).
2. Navigate to Entity group ➔ search for any Control Group Entity group.
    - Verify the Main section label (earlier it was Text box instead of Text Area).

Test Case 4: Default the category in Device Population and Control Group and should be open to modify

1. Navigate to Entity group ➔ search for any Device Population Entity group.
    - Verify the Group Category
2. Navigate to Entity group ➔ search for any Control Group Entity group.
    - Verify the Group Category

Test Case 5: Extendable lookup “Entity Group Criteria Source” Service Script drop down should return service scripts only with description 'Entity Group Criteria Source%'

1. Navigate to Extendable Lookup ➔ search for D1-EntityGrpCriteriaSrcLookup (Entity Group Criteria Source).
2. Broadcast “Program” or “Specification.
3. Click “Edit”, drop down of Value Retriever should only show service scripts with description 'Entity Group Criteria Source%'.
4. any Extendable Lookup value and verify “Is Required” does not exists anymore under “Criteria Sources” section.

Copyright ©2025, Oracle. All rights reserved.

Test Case 6: Extendable lookup “Entity Group Criteria Source” Service Script drop down should return service scripts only with description 'Entity Group Criteria Source%'

5. Navigate to Extendable Lookup ➔ search for D1-EntityGrpCriteriaSrcLookup (Entity Group Criteria Source).
6. Broadcast “Program” or “Specification.
7. Click “Edit”, drop down of Value Retriever should only show service scripts with description 'Entity Group Criteria Source%'.
8. any Extendable Lookup value and verify “Is Required” does not exists anymore under “Criteria Sources” section.

Test Case 7: Removed the Required element on the Entity Group Category Extendable lookup

1. Navigate to Extendable Lookup ➔ search for D1-EntityGrpCodeCategoryLookup
2. Broadcast any Extendable Lookup value and verify “Is Required” does not exists anymore under “Criteria Sources” section.

Test Case 8: Validate Template SQL on Entity Group Category

1. Navigate to Entity Group Category Extendable Lookup ➔ search for D1-EntityGrpCodeCategoryLookup
2. Make sure the Template SQL does not start with “select” clause.
3. Search for the Entity Group with the above Entity Group Category
4. Validation error is thrown “Template SQL must start with select clause”.

Test Case 9: M&V Transaction Display changes

1. Create a new M&V Transaction and verify that Calculation group and Aggregator MC are shown on Display UI.
2. Show Calculation group and Aggregator MC on M&V Transaction Display UI and.
3. Move Regression Statistics to the left in M&V Transaction Main section.
4. Show Calculation Rule on SQ details zone next to SQI.

Test Case 10: M&V Subscription Query search by “M&V Subscription Information” zone - remove “Show Inactive” dropdown from search

1. Navigate to Menu -> Digital Asset Management -> M&V Subscription
2. Select search by “M&V Subscription Information” zone.
3. Verify that “Show Inactive” dropdown is removed from search.

Test Case 11: Device population Entity Group – M&V Subscription changes

1. Verify that algorithm soft parameter from Device Population Audit Algorithm is removed.
2. Instead M&V Subscription Type and Calculation Group are added o
3. Show M&V Subscription on device population Entity Group in Display (non-editable)
